- http://trusting-pike-30aec3.netlify.app/

Host Cloud - Responsive Template:
- http://relaxed-goldwasser-c00b54.netlify.app/

Levy Electric Scooters Freelancer Project:
- https://lucid-ardinghelli- db0410.netlify.app/

Back-End:

TAFANEEN (Graduation Project):

- Our platform provides a seamless experience for adding products to carts and completing purchases.

- Users can access training courses to create products independently and subscribe for ongoing learning.

- Google Maps integration helps locate nearby stores.

- Craftsmen have a control panel to manage products and add stores to Google Maps, with tools.

- The admin dashboard allows for managing courses, approving products, and creating special offers, streamlining administrative tasks and site management.

Education Courses Online: Aug 2021 - Sep 2021:

Users can favorite courses, view instructor profiles and ratings, and access free courses. Instructors have a control panel to add courses, create offers or discounts. This interface helps manage courses and enhances student engagement
